CONTENT

WELCOME ADDRESS

Distinguished colleagues and friends,

A great poet in ancient China once said," A bosom friend afar brings a distant land near." It means that under the sky, we are all friends and neighbors. What brings us together here today is the common passion for tunnelling and underground space.

As an ITA member, the China Civil Engineering Society (CCES) was established in 1912 and has nearly 1,000 corporate members and 100,000 individual members. In the field of civil engineering, it is committed to promoting the developement of technology and related disciplines, the popularization of science and technology, the cultivation of scientific and technological talents, and the tight integration of economy with science & technology, thus making great contributions to the country's development.

The CCES joined ITA in 1979, and has been actively participating in ITA activities on behalf of China.

In September 1990, China hosted the World Tunnel Congress and the 16th ITA General Assembly in Chengdu. It was the first time the conference was held in China. Besides, in November 2018, the 4th ITA Tunnelling Awards was held in Chuzhou, Anhui Province, China.

As is well-known, China is still a developing country, and its economic development still relies strongly on infrastructure construction. The construction of tunnelling and underground works is one of the major tasks with huge potential for China to undertake. China has achieved a lot in the development of tunnels and underground spaces thanks to its unremitting efforts for decades. At present, the total length of railway, highway and subway tunnels in operation in China reaches up to 42,187 kilometers. There are also many major tunnel projects under construction in China, including TBM tunnels, immersed tube tunnels, subway tunnels, road tunnels, railway tunnels, underground utility tunnels and urban underground spaces, which make it an ideal place to host the World Tunnel Congress.

Since its inception in 1974, ITA has made best efforts to provide its members with excellent platforms for learning and exchanges. Through WTC, ITA Awards, training programmes and publications, it has greatly promoted the improvement of global tunnelling activities and underground space use. China is the beneficiary of these ITA activities. Many countries and international experts have given China a lot of help in the past few decades, and we will always remember with gratitude those friends who extended a helping hand to us. China's tunnelling and underground space sector still needs the support and help of the international community, especially that of ITA. It is a great honour for CCES to host WTC 2024 and ITA General Assembly, and CCES will be committed to promoting the friendship and cooperation among ITA members, and improving tunnelling and underground space technology.

We look forward to seeing you all in Shenzhen, China in 2024!

Yi Jun
President of
China Civil Engineering Society

ABOUT US

ITA-AITES

The International Tunnelling and Underground Space Association (ITA) is the leading international organization promoting the use of tunnels and underground spaces through knowledge sharing and technology applications. ITA represents all aspects of tunnel and underground space planning, design, and construction.

Since its founding in 1974, the association has encouraged the use of underground space and promoted progress in the planning, design, construction, maintenance, and safety of tunnels and underground spaces. Currently, ITA brings together 78 member countries and more than 260 corporate or individual affiliate members.

WTC2024, the leading international conference for the tunneling and underground engineering industry, will be held in Shenzhen, China, from April 19-25, 2024.

The Congress in this year will focus on the latest trends and sustainable development of tunnelling and underground engineering.

About China Civil Engineering Society

China Civil Engineering Society (CCES) is an academic society for civil engineering scientists and technicians nationwide, which is a part of China Association of Science and Technology. Founded in 1912, it is one of the earliest engineering academic societies established in China, of which the predecessor is the Chinese Institute of Engineers founded by Mr. Zhan Tianyou, an outstanding civil engineer in modern China.

The Society has actively carried out academic activities, making positive contributions to the development of civil engineering in China and the improvement of science and technology in the field of civil engineering.

The main missions of the Society are:

☑ To carry out academic exchanges;
☑ To edit and publish scientific and technical publications and journals;
☑ To carry out international scientific and technical exchanges;
☑ To provide advice on major issues in national scientific & technical policies and in economic construction;
☑ To carry out technical services and consultation;
☑ To carry out continuing education and technical training;
☑ To Popularize scientific knowledge and promote advanced technology;
☑ To Recommend and commend outstanding scientific and technological achievements and talents;
☑ To Reflect members' reasonable demands and provide services for members.

100,000	1,000	21
Nearly 100,000 individual members	Nearly 1,000 corporate members	With 21 loca branches of "CCES"

Tunnel and Underground Works Branch of China Civil Engineering Society

The Tunnel and Underground Works Branch of China Civil Engineering Society (TUWB-CCES) was established in March 1979. There are 11 scientific and technical forums under the branch. The Society owns the journal "Modern Tunnel Technology" and until now has held the 21st China Tunnel and Underground Engineering Conference and Annual Tunnel Conference.

Aim: To encourage the use and development of underground space and promote the development of tunnel engineering design, construction, management and maintenance technology.

Main Tasks: To carry out domestic and international academic exchanges; edit and publish scientific and technical books and journals; play a professional advisory role on national science & technology policies and economic construction in major issues, and carry out technical services; carry out continuing education for members and popularization of science Technical knowledge; reflect the opinions and requirements of the members and organize activities to serve the members.

PCO: Guangdong Shuangwei Culture Technology Group Co., Ltd.

SHUANGWEI is the official PCO of ITA-AITES 2024 World Tunnel Congress.

It has professional organization ability, rich experience in organizing conferences and provides diverse, active, professional and efficient services. The executing team will strictly implement ITA-AITES and China Civil Engineering Society's conference decisions, providing considerate exhibition services.

≫ About the Host City - Shenzhen

Shenzhen, praised as the "Star of Science & Technology", is shining on the south coast in China, the historical country with a time-honored history and splendid civilization.

Adjacent to Hong Kong and located in the core of the most prosperous zone in China - Guangdong, Hong Kong and Macau Bay Area, Shenzhen attracts a variety of high-quality talents and enterprises from home and abroad to dwell here.

Combining state-of-the-art infrastructure, excellent conference facilities, modern amenities and diverse entertainment, Shenzhen is definetly an ideal conference destination.

"The Star of Science & Technology" ——Shenzhen

High Internationalization
Shenzhen is an international integrated transportation hub with the largest number of ports in China and the largest number of people entering and leaving China.

Developed Conference and Exhibition Service Industry
Shenzhen has the world's largest convention&exhibition center and extensive experience in organizing international conferences.

Intregrated Metropolis
There are large numbers of international leading companies' headquaters in China locating in the city.

Warm and Pleasant Climate
The Congress are held during the most comfortable season of the year, warm and comfortable with temperatures maintained at 75℉(24℃).

⏱ Time zone
UTC+8

¥ Currency
The official currency is CNY.

⚡ Voltage
The supply voltage in China is 220V/50Hz.

🔔 Shopping and cuisine
Having numorous foreign ports, Shenzhen's large shopping malls are well developed with a rich variety of goods, where you can buy goods from all over the world. Besides, there is a wide variety of food ranging from traditional Chinese flavors to global cuisines. What's more, high standard of service in a developed hotel industry, will provide you with the ultimate leisure and pleasure experience.

PROGRAMME

📅 **19 April (Friday) - 25 April (Thursday), 2024**

Time	19 April, Friday	20 April, Saturday	21 April, Sunday	22 April, Monday

※ The duration of the technical session will be 3.5h in the morning and 3h in the afternoon.
※ Five conference rooms are prepared to accommodate parallel technical sessions, which are located on the same level, within two-minute walk from each other.

CONGRESS THEME & TOPICS

Congress Theme: Tunnelling for a Better Life

Focus on the sustainability of tunneling

To develop sustainably, the world needs more tunnels and underground works as sustainable, resilient, low-carbon, smart and safe solution to provide people with transportation services, shopping malls, parking lots, shelters from bad weather and facilities for waste disposal.

Energy-saving and eco-friendly, green and low-carbon

The congress will focus on the latest trends and development directions of tunneling and underground engineering, look forward to the era of low-carbon environmental protection and intelligent technology, and provide a good platform for industry research, survey, design, construction methods and technology exchange with advanced information, digital and intelligent tools.

Promotion and application of intelligent construction technology

The conference will also provide an excellent opportunity for participants to showcase new materials, technologies, processes and equipment and to look into the future.

These new technologies and equipment will further enhance the value of tunnels and underground works in a highly efficient manner, advancing the industry and the society it serves.

新建深江铁路项目超大直径泥水平衡盾构机"深江2号(大湾区号)"下线仪式
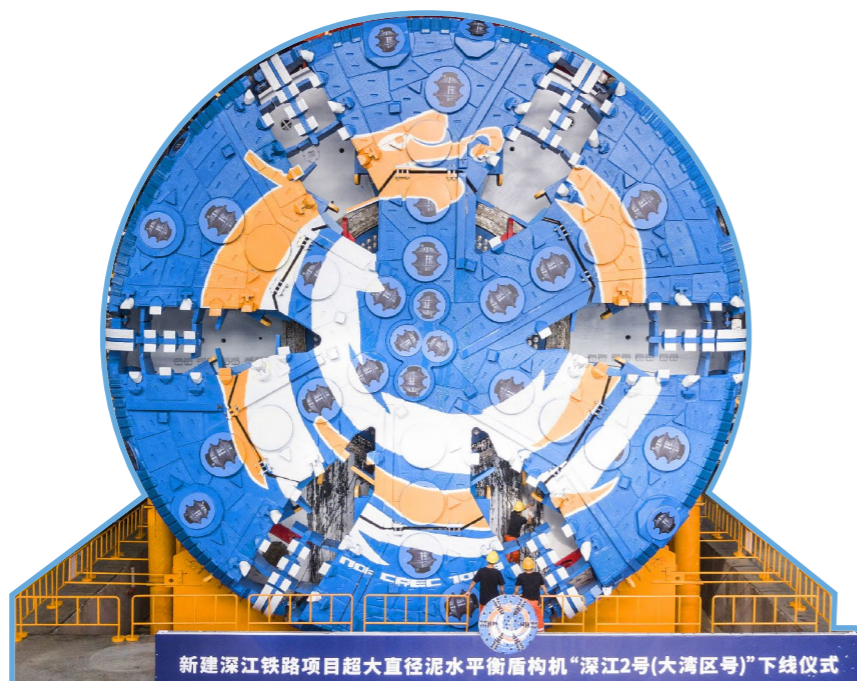

17 Main Topics

> Geology and Exploration

> Design innovations

> Mechanized tunnelling

> Conventional tunnelling

> Tunnelling under challenging conditions (complex terrain and environmental conditions etc.)

> Immersed tube tunnels

> Use of underground space (including urbanization, storage, energy, waste etc.)

> Shafts

> Information technology and application (BIM, IOT)

> Tunnel inspection and monitoring technology

> Tunnelling risk management (geological prediction, disaster prevention)

> Occupational health, safety, environment

> Life cycle, tunnel operation and maintenance

> Sustainability and decarbonization

> Tunnel construction equipment (BEV, Automation)

> Contracts and Insurance

> Architecture & Aesthetics

SPONSORSHIP OPPORTUNITIES

⟫ How to Sponsor

1.Application Access

Access 1: The completed Sponsorship and Exhibition Reservation Form need to be signed / stamped by the sponsor / exhibitor representative and sent to WTC2024 Organizing Committee via email (exhibition@wtc2024.cn).
Access 2: Through the official website of WTC2024 - enter "Sponsors & Exhibitors", fill in and submit the application.
Organizing committee will reply by email or phone within 1-2 working days after your application is submitted.

2.Documents Requirements

☑ Sponsorship packages are limited in number and available on a first-come, first-served basis.
☑ Sponsors must be legal persons or other organizations legally registered and validly existing in the People's Republic of China and countries or regions outside the customs territory.
☑ All sponsorship and exhibiting content are subject to the receipt of the signed contract, and we will provide you with the contract documents upon receipt of your reservation.
☑ After signing the contract, please make your payment on time as required by the contract.

3.Contact us

If you have any request, please contact the Organizing Committee：
✉ E-mail: exhibition@wtc2024.cn
☎ Tel: +86-13824454284 Hugo (for English consultant)
     +86-13902287097 Ella (for Chinese consultant).

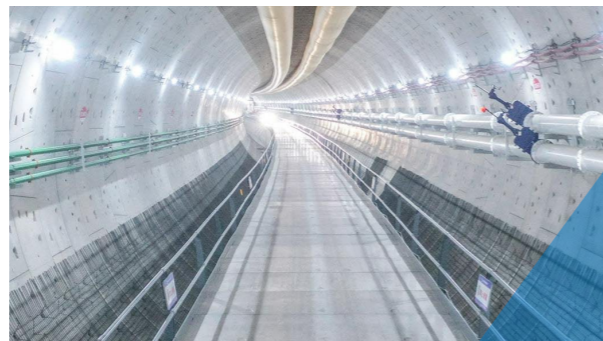

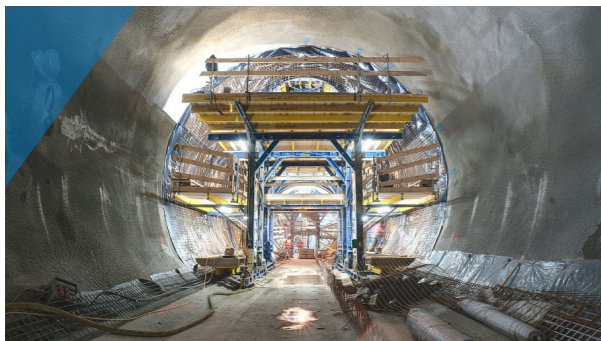

EXHIBITION & FEES

How to become an exhibitor

1.Application Access

Access 1: The completed Sponsorship and Exhibition Reservation Form should be signed/stamped by the exhibitor representative and sent to the WTC2024 Organizing Committee via email (exhibition@wtc2024.cn).
Access 2: Through the official website of WTC2024 - enter "Sponsors & Exhibitors", fill in the form and submit the application.

☑ The application will be answered by email or phone within 1-2 working days after your submission.
☑ All participation content is subject to the receipt of signed contract, we will provide you with contract documents upon receipt of reservation.
☑ After signing the contract, please make your payment on time as required by the contract.

2.Preparatory work after confirmation of your booth

①The standard booth of 9 m² (3*3) will be provided by the Organizing committee

⊘ 1 standard aluminum frame combination board	⊘ 1 consulting table, 2 folding chairs
⊘ 1enterprise fascia board (enterprise name)	⊘ 1full registration quota
⊘ 4 spotlights	⊘ 1exhibitor pass
⊘ 1-500W/220V power outlet	⊘ Write in the exhibitor list
⊘ Carpet	⊘ Display exhibitor logo on official website (can link to the official website of the company)

②For Exhibition Space of 36m² (inclusive) or more: Exhibitors will be responsible for their own booth design, booth construction and related costs. The exhibition organizer will only provide the venue, basic lighting and cleaning of public areas, as detailed in the Exhibitor's Manual.
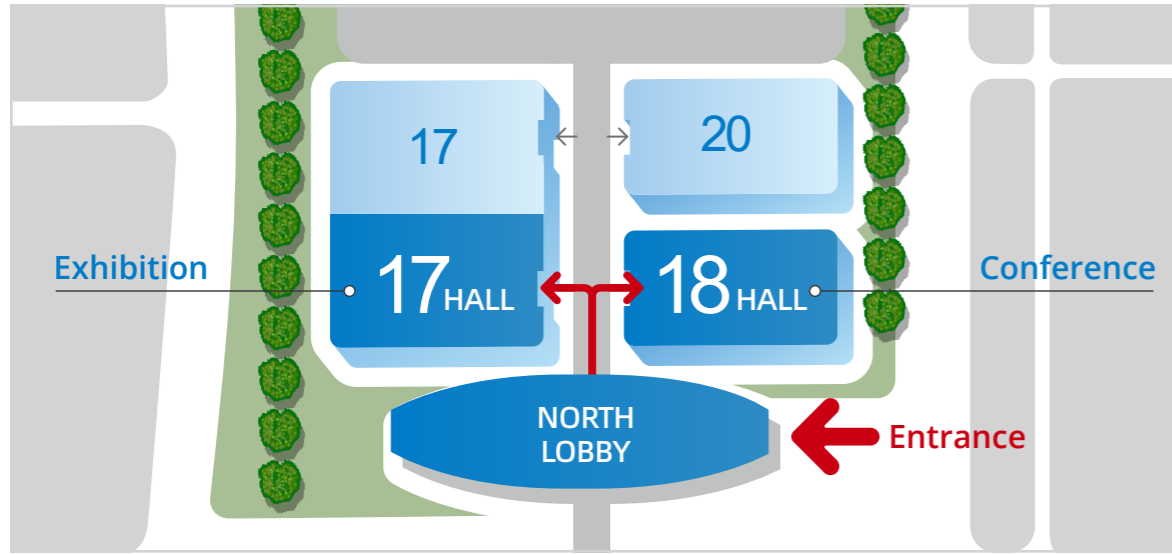

3.Stand Rental

Booth type	Cost	Scale
Exhibition Booth	¥ 40,000 / booth	9 ㎡ (3mx3m) /booth, with 500 watts power supply
Exhibition Space	¥ 3,500 /m²	Order from 36 ㎡ , open space only without furnishings

For special requests, please contact the organizing committee (E-mail:exhibition@wtc2024.cn or call +86-13824454284 Hugo (for English consultant) / +86-13902287097 Ella (for Chinese consultant).
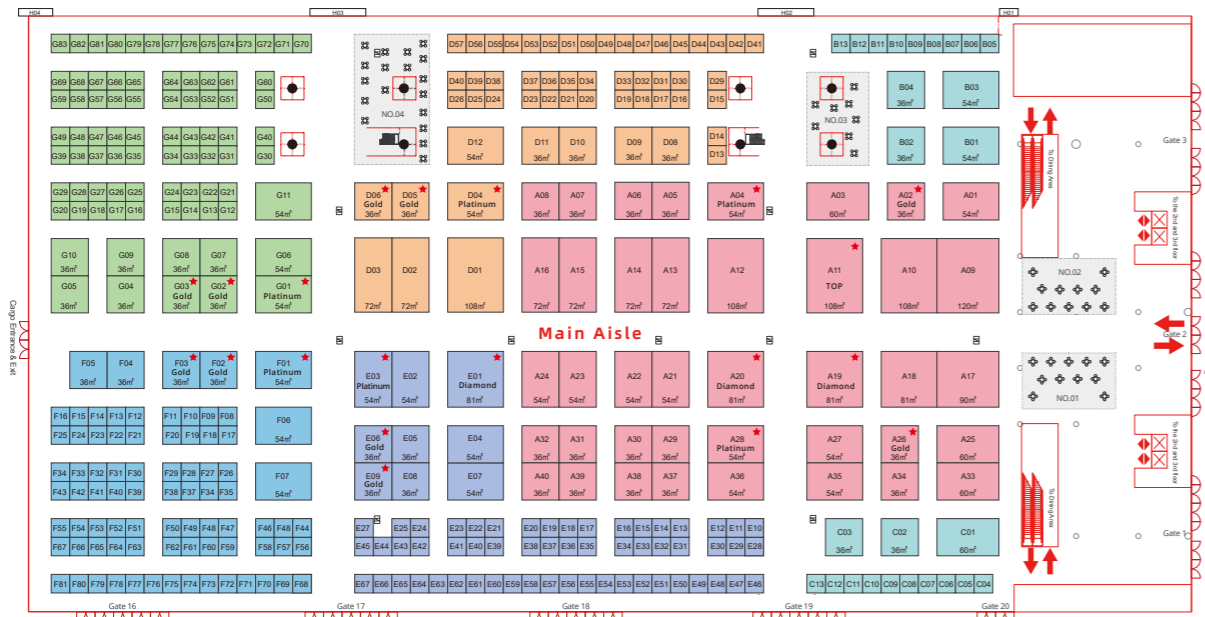

4.Exhibition hall specific area location

Exhibition Floor Plan

Area: 20,000㎡   **Venue:** Hall 17 in Shenzhen World Exhibition & Convention Center

Main Aisle

Exhibitor Category

- **A** Selected Booth
- **B** **C** Scientific Research, Universities, Finance, Media
- **D** Design Planning and Consulting
- **E** Tunnel Construction
- **F** Tunnele Euipment, Operation & Maintenance, Software
- **G** Machine Tools, Machineparts, Materials and Measuring Instruments
- Coffee Break Area
- ★ Sponsorship Preferred

Note: The area not specially marked in the Exhibition Floor Plan is the Exhibition Booth (9 ㎡, 3m*3m/each)

CONGRESS GENERAL & REFUND POLICY

>> General Policy

☑ The exhibitor should ensure the legality, authenticity and validity of all materials and documents submitted.
☑ Sponsorship and exhibition opportunities are limited and available on a first-come, first-served basis.
☑ Sponsors and exhibitor must be legal persons or legal organizations legally registered and validly existing in the People's Republic of China and countries or regions outside the customs territory.
☑ All sponsorship and exhibition content is subject to the receipt of signed contract, we will provide you with the contract upon receipt of your reservation.
☑ After signing the contract, please make your payment on time as required by the contract.

>> Cancellation Policy

For any cancellation of your registration, the Professional Congress Organizer of WTC2024 must be notified in writing by e-mail at [info@wtc2024.cn].

Registration cancellations are subject to the following conditions:

☑ Until June 1st, 2023 (excluding), you may cancel and you will get a refund minus 30% of the total fee as administrative fee.
☑ From June 1st, 2023 to January 1st, 2024 (excluding), you may cancel and will get a refund minus 50% of the total fee as administrative fee.
☑ From 1st January 2024 (inclusive) onwards, you may cancel but there will be no refund.
☑ Non-shows at the Congress will be charged the full fee.

RESERVATION FORM

SPONSORSHIP AND EXHIBITION

Please fill in the reservation form carefully and send by scanned version to the WTC2024 Organizing Committee via E-mail (exhibition@wtc2024.cn) with the signature and seal of the unit/company representative.
